Skin Problems And Its Causes

Your skin faces everything from harsh cold winter to blazing sunlight and bears the damage that is caused every day. In this polluted and crowded urban life, your skin damage gets accelerated exponentially. It is a true fact that people living in cities experience more skin problems than rural ones.

- The pollutants affect the skin and causes acne outbreak which leads to rashes or redness on skin afterwards. This acne problem could transform into some serious problem and can bring down the look and quality of your skin. Many natural acne treatment could reconstruct the skin cells and reduce the damage caused by the pollution. But, along with this various skin care measures should be taken to ensure that the acne outbreak is not relapsed.

- The most condition in today's atmosphere is tanning or pigmentation i.e. blackening of skin. Several [skin lightening treatments](#) are available in the market to cure the skin malady
